

Premier Elite LCDLP

Texecom

Blue backlit display

Available with a large 32 character display, the high level menu driven LCD programming simplifies even the most complex design requirements, minimising set-up time & maximising flexibility.

Backlit keys

When in use, the Premier Elite LCDLP features fully backlit keys for operation in the dark. The backlight brightness is fully programmable.

Full system programming

More than just an arming station, the Premier Elite LCDLP is a fully functional, fully programmable keypad.

Proximity Tag Compatibility

Features a built-in proximity tag reader. This provides compatibility with Texecom Proximity Tags, which simulate a valid user code, simplifying keypad operation and minimising user error.

Outstanding features:

Fully functional keypad; not just an arming station
Integral proximity reader for use with Texecom RFID prox tags
EN50131-1, EN50131-3, EN50131-5-3, PD6662 Grade 2 Class II
